**NOTICE OF ALLOWANCE**

***Allowable Subject Matter***

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention relates to a hand pump operated bottle cork remover. Chan (US 2005/0076741 A1) discloses a bottle cork remover having a handle unit and an air pump; however, Chan fails to disclose the first and second fitting units. Reinbacher (5,012,703) also discloses a bottle cork remover that includes an air pump and the provision of a first fitting unit; however, Reinbacher fails to provide a second fitting unit. Therefore, it is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious a second fitting unit having a hollow containing portion; wherein the displacement portion of the first fitting unit is passed through an upper end of the hollow containing portion; the hollow containing portion having a plurality of position-limiting blocks projecting from the upper end thereof and respectively movably held in the guide gaps of the displacement portion, together in combination with the rest of the limitations in the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
